SUMMARY

Enthusiastic and creative undergraduate student pursuing a degree in Information Technology, with a strong passion for UI/UX design and frontend development. Skilled in crafting intuitive and visually appealing user interfaces, with hands-on experience in HTML, CSS, and JavaScript. Known for thinking outside the box and delivering innovative design solutions that enhance user experience. Eager to contribute design and technical expertise to dynamic teams and gain valuable industry experience.

WORK EXPERIENCE

UI UX Designer , Freelancing

Jan 2023 - Present

- Designed and implemented intuitive user interfaces, improving user satisfaction scores by 30%.
- Conducted user research and usability testing, reducing design revisions by 40%.
- Collaborated with cross-functional teams to deliver responsive web and mobile designs, accelerating development timelines by 20%.
- Led the end-to-end design process for multiple client projects, consistently meeting deadlines and exceeding quality expectations.

Frontend Developer, Freelance / Outsourced Projects

Mar 2022 - Present

- Developed responsive and user-friendly interfaces using HTML, Tailwind CSS, and JavaScript, reducing client revision cycles by 35%.
- Optimized frontend performance across multiple projects, leading to a 25% improvement in page load times.
- Collaborated with designers and backend developers to ensure seamless integration, increasing overall project delivery efficiency by 20%.

EDUCATION

Sep 2020 - Present

BSc (hons) in information technology

Sri Lanka Institute of Information Technology

- Specialization in Information Technology .
- GPA 2.8

PROJECTS

Tea Leaf Disease Analyzer (<https://bit.ly/3GkkEsW>)

- Developed an intelligent system using Convolutional Neural Networks (CNNs) to detect and classify common tea leaf diseases with 92% accuracy.
- Integrated image preprocessing techniques such as histogram equalization and segmentation to enhance diagnostic precision.
- Enabled early detection for farmers, improving crop yield and reducing the use of unnecessary pesticides by 35%.

Telecommunications Mobile App – UI/UX Design (<http://bit.ly/4eskhZL>)

- Spearheaded the UI/UX design of a feature-rich mobile app for a leading telecommunications provider, streamlining user access to core functionalities like recharge, billing, and support.
- Utilized Figma, Adobe XD, and Protopie to design and prototype high-fidelity interfaces with interactive flows across Android and iOS platforms.
- Applied mobile-first and accessibility-driven design principles, resulting in a 40% increase in user task efficiency and higher usability scores in testing.
- Optimized performance through API caching, code splitting, and efficient DB queries, reducing page load times by over 30%.

Collaborated with cross-functional teams to ensure pixel-perfect implementation and smooth developer handoff, accelerating design-to-release cycles by 25%.

Advanced Plant Disease Analyzer – Automated Detection and Management System for Vanilla | Final Year Research Project

- Engineered an end-to-end AI-powered system to detect, quantify, and monitor diseases in vanilla crops using image processing and deep learning.
- Devised a quality measurement algorithm to assess disease severity, enabling precise treatment strategies.
- Implemented a user dashboard for real-time insights, reducing manual effort and increasing diagnosis efficiency by 60%.
- Showcased innovative application of machine learning in agritech, contributing to smarter and scalable farming solutions.

CERTIFICATES

- **Huawei ICT Competition – Cloud Track**
 - Achieved a high score in the prestigious Huawei ICT Competition – Cloud Track, demonstrating strong proficiency in cloud computing fundamentals and architecture.
 - Gained hands-on experience with Huawei Cloud services, including resource provisioning, networking, and security.

SKILLS SUMMARY

- **Design Tools**
 - Figma, Adobe XD, Sketch, Protopie, Canva, Adobe Photoshop, Illustrator.
- **Prototyping & Wireframing**
 - Figma Interactive Prototypes, Low- & High-Fidelity Wireframes, Clickable Mockups, Design Systems
- **Tools**
 - Figma, Adobe XD, Postman, Git, GitHub, WordPress, PowerPoint, VS Code, Android Studio, Jupyter Notebook
- **Collaboration & Handoff**
 - Zeplin, Avocode, Adobe CC Cloud, Developer Handoff in Figma
- **User Research & Testing:**
 - User Personas, Journey Mapping, Usability Testing, A/B Testing, Feedback Analysis
- **Soft Skills**
 - Strong stakeholder collaboration, People management, Clear and professional communication, Empathy-driven design thinking, Teamwork & adaptability
